

Document: Irish presidency seeks 'agreed understanding' on Made in Europe rules

From: POLITICO Pro Alert 2026-07-08 20:43

English Summary

The Irish EU presidency is seeking member-state consensus on the Industrial Accelerator Act's most contentious provisions, including local-content preferences in public procurement and conditions on foreign investment. The proposal has exposed divisions between countries backing stronger European industrial policy and others concerned about added bureaucracy and potential trade barriers.
