Sector Coverage

China's AI surge will push Washington toward selective restrictions

By EG Geo-technology, Xiaomeng Lu, Heather West

As Chinese AI models close the gap with US peers, Washington will likely pursue narrow response such as subscription curbs or government use restrictions rather than a blanket ban, balancing national security concerns against industry opposition and Beijing's retaliation threats.

Four regulatory camps emerge as states move toward restricting data centers

By EG Geo-technology, Carisa Nietzsche, Scott Bade, et al.

As public opinion on data centers sours, state and local governments are advancing divergent but more stringent restrictions.
